JAS BEAUTY LOUNGE
MILKSHAKE
INTEGRITY RECONSTRUCTION SYSTEM

There are many causes that alter the structure of the hair fibre:
aggressive chemical treatments, the excessive use of heated tools, the sun, and environmental aggressors. When the hair appears weak, dull and fragile, it tends to break easily. A targeted treatment is needed to repair and strengthen the resistance of the hair fibre.

milk_shake® integrity reconstruction system products contain AMINO ACID COMPLEX*, a plant-based keratin with 18 wheat and soy amino acids with an antioxidant, strengthening and protective action.

INCLUDES :
STEP A WITH A NANO SPRAY STEAM GUN, STEP B, HEAD MASSAGE, STEAM AND HAIRWASH
